Contact name: Craig Stevens

This practice follows an infection prevention quality assurance programme. All impressions and appliances are washed and disinfected before forwarding to the laboratory.

In order to ensure laboratory work that is returned to us is a suitable condition, please write the details of your infection prevention procedures in the box below or attach a copy of your written procedure to this form.

This laboratory's infection prevention procedure is as follows:

The laboratory clean and washes all appliances off in Nitradine disinfecting formula (see attached sheet) before sending out. This is not classed as sterilized therefore normal practice protocols should be adhered to.
