

## A PREMIUM OPTION FOR YOUR PATIENTS

Here at Ashford Orthodontics, we are excited to offer Zendura, the highest performing clear dental material available for clear retainers and aligners.

Zendura was specifically developed to advance clear aligner therapy technology more than a decade ago. It is now recognised as the benchmark for thermoplastic material for clear aligner treatment and retention.

## WHAT MAKES ZENDURA BETTER?

We believe Zendura is the best option when it comes to retention; here's why...

Benefits to you:

- Chance of breakage is significantly reduced, saving you extra chair-side time and labour for impressions and re-fits
- Greater patient satisfaction leads to increased referral rates and return business
- Overall improved case outcomes and clinical performance

Benefits to your patients:

- Long-term stain-repellence means clarity is better than traditionally-used plastics
- A thinner profile and tighter fit make for more comfortable and discreet wear
- Extended usage life results in fewer visits and more convenient up-keep

Choose Zendura for optimised customer experience

“

A tougher,  
stronger product  
that stays clear.

”

## HOW MUCH IS ZENDURA?

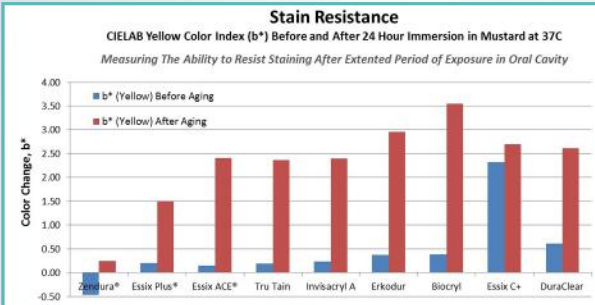

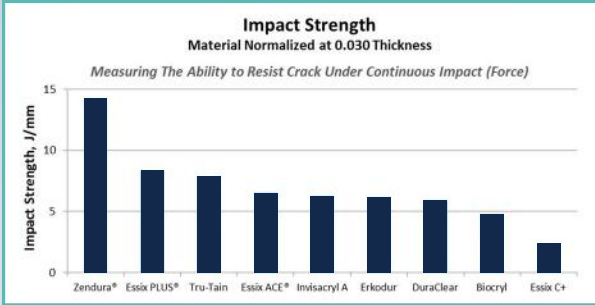

Premium quality appliances without the price-tag for your private patients.

**£30**  
Zendura Retainer

or

**£60**  
for a pack of 3

**£24**  
Zendura FLX Aligners

## WHAT IS THE DIFFERENCE BETWEEN ZENDURA RETAINERS & ZENDURA FLX?

Zendura	Zendura FLX
Superior stress retention and crack resistance properties are ideal for retainers and night guard applications, combined with fast and effective tooth-moving force.	Dynamic elasticity reduces initial pressure on patients teeth and promotes ultimate comfort throughout movement stages, defining a new standard for clear aligner materials.

## What do I need to do?

If you're interested in upgrading your clear retainers or aligners to Zendura all you need to do is let us know on the lab ticket. Please contact us on 0191 565 2788 or email us at [info@ashfordorthodontics.co.uk](mailto:info@ashfordorthodontics.co.uk) for more information.
